

## **What's the Return on Your Reporting Investment? Here's What it Could Be With Windward Reports.**

### **Save Money**

Using Windward Reports will significantly lower your total cost in generating reports. Most customers find using Windward's advanced reporting software provides savings that more than offset the initial cost and its solid performance requires no additional fees to fix problems. In addition, our Total Cost of Ownership is exponentially lower than our competitors. Below is evidence from one customer who saves \$400 per report from using Windward.

*"The Report Template Design using MS-Word saves 40% of report development time. Our average estimation for report development was 2 days before using Windward Reports, and now it's reduced to 1 day. This results in cost savings of \$80,000 for 200 reports developed so far."*

*"I can tell anyone that Windward Reports is a software you install once and it runs forever without any issues. I can prove 1000 times of ROI."*

**- Gopal Kandasamy, Virginia Dept. of Alcoholic Beverages**

### **Save Time**

Our customers have said that using Windward Reports has made the process of creating a report at least 5 times faster. Our easy-to-use software requires no time-consuming coding and can be mastered quickly by anyone in your business. With our report template design integrated into Microsoft Word or Excel we require no lengthy and expensive training in becoming familiar with our software.

*"Windward has been a godsend that have saved us about 100-200 hours at \$100 per hour of work and given us a big competitive advantage over our rivals. It's been a great product".*

**- John Douglas, Sandia National Labs**

### **Do More**

Windward also provides countless features that increase the functionality of your reporting far beyond the norm in a manner that anyone can use it. From an arsenal of templates to detailed editing features Windward supplies you with the tools to dazzle all who view your organized, professional reports.

*"Unlike Crystal Reports, with Windward we can create some really sexy reports that are visually pleasing for the viewer."*

**-Steve Zacharidis, InfoComp**

*"We bought White Clarke's CALMS as our Loan Origination System, and it uses Windward to produce legal documents. With our previous system, we could not add or change documents, and so had to live with whatever we had, or devise a Word template. Windward is an enabler for us."*

**-Wayne Cook, Community Savings Bank**

### **Require Less**

Windward's advanced reporting software will free up significant time for your expensive developers so that you can pay them to do something more important than reporting. Our software does not use a dedicated server which will save you the cost of a report server administrator.
